ADAP Advocacy Association Announces
"Intersection Between ACA & ADAP Summit"

WASHINGTON, D.C. (January 23, 2014) – The ADAP Advocacy Association, also known as aaa+, together with the Community Access National Network (CANN) "Hepatitis: Education, Advocacy & Leadership" (HEAL) project, today announced that it is hosting its annual summit on Sunday, April 13th - Tuesday, April 15th, 2014. The summit, themed "**Intersection Between ACA & ADAP Summit**," will be open to the public, but only invited panelists will be participating on the various roundtables – which will be facilitated by an independent moderator.

"The summit represents a continuation of the educational programming that we offered with last year's webinar on the Impact of the Affordable Care Act, Medicaid Expansion & Insurance Exchanges on HIV/AIDS and Viral Hepatitis Services," said **Brandon M. Macsata**, CEO of the ADAP Advocacy Association. "To that end, specific areas of interest will be identified and discussed at the summit, whereby the information will be used to issue a Final Report. Furthermore, it [the Final Report] will be used to help shape the agenda for the ADAP Advocacy Association's 7th Annual Conference being held in Washington, DC this summer."

The summit agenda will include relevant discussion topics on HIV/AIDS access to care and treatment, as well as Viral Hepatitis services.

To register for the summit, go to **http://www.adapadvocacyassociation.org/events.html**.
