## ADAP Advocacy Association Applauds Pharmaceutical Industry Efforts on Protecting the Drug Supply Chain during the Coronavirus Pandemic

### *No HIV Drug Shortages Foreseen for People Living with HIV/AIDS*

For Immediate Release:  
March 26, 2020

WASHINGTON, D.C. – The ADAP Advocacy Association today applauded the pharmaceutical industry efforts on protecting the nation’s drug supply chain for anti-retroviral medications in response to the ongoing Coronavirus (“COVID-19”) pandemic. People living with HIV/AIDS can be assured that there will be no drug shortages in the coming year despite COVID-19.

“We contacted each drug manufacturer of the anti-retroviral medications for the treatment of HIV/AIDS – AbbVie, Janssen Pharmaceuticals, Gilead Sciences, Merck. Theratechnologies, and ViiV Healthcare – and none foresee any disruption to their drug supply chain over the next twelve months,” summarized Brandon M. Macsata, CEO of the ADAP Advocacy Association. “Their combined assurances provide significant peace-of-mind for the people living with HIV/AIDS who we represent, and who rely on these life saving medications.”

The U.S. Food & Drug Administration (“FDA”) has made available information on the current drug shortages online at <https://www.fda.gov/drugs/drug-safety-and-availability/drug-shortages>.
