ADAP Advocacy Releases 2023 Annual Report

Patient Advisory Committees Play Increasingly Important Advocacy Role

WASHINGTON, D.C. – ADAP Advocacy today released its 2023 Annual Report – which highlights the organization’s ongoing commitment to access, information and participation for patient advocacy designed to promote and protect the AIDS Drug Assistance Program (“ADAP”). The report is shared using an infographic format to capture the previous year’s highlights.

“In 2023, ADAP Advocacy further leveraged the experience, knowledge, and perspectives of the patient advocacy community in developing and sharing our federal public policy priorities. This was especially important in our pursuit of improving access to long-acting injectables therapies for people living with HIV, as well as reforming the 340B Drug Pricing to better serve patients rather than the bottom lines of the large hospital systems and mega service providers,” summarized **Brandon M. Macsata, ADAP Advocacy’s CEO.**
